“The Great Derangement
Climate Change and The Unthinkable”
published by Penguin

Amitav Ghosh says that artistes need to create a narrative around climate change

Are we deranged? The acclaimed Indian novelist Amitav Ghosh argues that future generations may well think so. How else to explain our imaginative failure in the face of global warming? In his first major book of nonfiction since *In an Antique Land*, Ghosh examines our inability—at the level of literature, history, and politics—to grasp the scale and violence of climate change.
